

Education Act Consultations – Our Children, Our Future: Getting it Right

Public engagement is a priority of both Alberta Education and Elk Island Public Schools. In keeping with this belief, Alberta Education invites all interested Albertans to participate in ongoing consultations regarding the new Education Act. The Alberta Education website (www.education.alberta.ca/engage) offers opportunities for students, parents, teachers, education and community leaders, and others to get involved. In addition to a series of in-person discussions currently taking place across the province, interested individuals can write letters, participate in online discussion boards, and provide input through social media between now and January 9, 2012. The new Education Act will be introduced in the Legislature in spring 2012.
